WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

30 mm bar, 830 mm long; chamfer both ends 1 mm.
Distances from the hood-side end (front, -Y):
ratchet hub 155 to 185 mm;
bearing centres 60 and 660 mm;
wheel hub 420 to 500 mm;
pump pulley taper bush 790 to 830 mm.
Cut an 8 mm keyway under the ratchet hub, the wheel hub
and the taper bush; keys 8 x 7 mm.
Drill and tap M8 on each key seat for a grub screw.
Bearings lock to the bar with their own grub screws.
Check: the bar runs true in V-blocks within 0.2 mm.

CollarDrive pump wheel shaft: making sketch
