WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Plate 8 mm, 380 x 440 mm (440 across the frame).
Four slots 14 mm wide, 60 mm long, along the frame,
over the crossbars 220 and 480 mm from the joint end,
50 mm in from the front edge and 50 mm from the back.
M12 bolts through the slots into the crossbars.
Blower feet holes: mark from the blower bought, outlet
toward the pump end, inlet facing the front (-Y).
Check: the plate slides 60 mm to tension the belt;
the blower outlet lines up with the flexible link.

CollarDrive blower plate: making sketch
